

# Mine Again

Kenton Dunson

I remember when you used to be mine  
Way back when, I was too naive to love you right  
But now if I only had the opportunity  
I would do anything because my heart still believes Maybe you could be mine again  
Maybe we could make that dream for real  
Like way back then, when love was yours and mine  
Maybe we could bring it back to life It's irrelevant to dwell on the past  
I'm accountable for what went bad  
And I mean that, but I keep on praying for another chance  
Just to have you back 'cause I've grown  
And I know how to be your everything Maybe you could be mine again  
Babe, we could make that dream for real  
Like way back then, when love was yours and mine  
Maybe we could bring it back to life No, no, it ain't over yet  
I just can't accept the possibility  
We were made for each other's arms  
I know you're my destiny We can't erase what was meant to be  
Part of you and part of me  
If we try one more time  
Maybe somehow we'll survive Maybe you could be mine again  
Maybe we could make that dream for real  
Like way back then, when love was yours and mine  
Boy, maybe we could bring it back Maybe we could bring it back  
Maybe we could bring it back to life  
Maybe you could be mine
