Love Letters

Paper Route

You found me sleeping
In Eden's garden
In my hand was your key
You'd been waiting for me

From the longest winter
To the coldest summer
Like the midwest thunder
You have pulled me under

I'll do anything it takes it to get through
I can carry you to any distance
No one's ever gonna love you like I do
This time I'm different

If you move then I move
You will take me with you
I am under your skin
I am your heart that beating

I'll do anything it takes to get through
I can carry you to any distance
No one's ever gonna love you like I do
This time I'm different

My soul, you should know
Can share your sorrow
Open the window let the light in

This time I'm different
