

# I Wanna Love

Kath Bloom

Just hear the rain come down  
I wish that you were near me  
There's no one else around  
I wish that you could hear me say  
I know you gotta have the pain,  
in order to have the growth  
I think I'm ready, darlin'  
I will accept them both  
for love My body tends towards habit  
My heart it longs for something new  
Sometimes you gotta have it  
That's the way I feel about you  
I know you gotta give  
in order to get it back  
I think I'm ready, darlin'  
I know just what I lacked.  
It's love  
I wanna  
I wanna  
I wanna love you I wanna love  
I wanna love  
I wanna love you, baby I wanna love  
I wanna love  
I wanna love you, darlin' I went to work this morning  
Everything in the same old place  
It hit me like a warning  
I used to see it on your face  
I'm gonna take this train  
And drive it right off the tracks  
I think I'm ready, darlin'  
I know I'm switching back for love  
I wanna love  
I want love  
I wanna love you I wanna love  
I wanna love  
I wanna love  
I wanna love you I wanna love  
I wanna love  
I wanna love you I wanna love... you I wanna love I wanna love
