Mountains

Institute

Gonna ride out on a speedboat
Gonna ride out on the radio
Gonna fix mine where possible
Gonna find myself a phone
We're so flammable
We go, we go, we glow
Mountains
Reach so close to the sun
One love
Takes you back where you become
Over mountains
Gotta get free like a fat wave
Gotta get free from the circus
There spaces for acrobats
But the jugglers are done
We're so flammable
We go, we glow, we glow
Mountains
Reach so close to the sun
One love
Takes you back where you become
Mountains
We fly so close to the sun
I need the heat of your love
We're falling, seems we can't get up
I'm not losing you again
It's a step away from overload
Did you bring any water?
We're so flammable
We glow, we glow, we glow
Mountains
Reach so close to the sun
One love
Takes you back where you become
Some days
We get so far from where we've come
Mountains
Mountains
Mountains

We fly so close to the sun
We fly so close to the sun
We fly so close to the sun
We fly so close to the sun
So close
