Satellite

The Asteroids Galaxy Tour

Free wheel on a dead end road
I dream of you in my veins
????
Let go
I wanna disappear
????
Desire in a silent shout
Hey you,
It's time you re-appear
Think I need somebody
A real somebody now
Gonna need somebody
Are you somebody
Think I need somebody
A real somebody now
Gonna need somebody
Are you somebody
I know you, yeah, you're just my kind
Your flow underneath my skin
With you I wanna waste some time
Think twice
Tonight I'm on my own
Think I need somebody
A real somebody now
Gonna need somebody
Are you somebody
Think I need somebody
A real somebody now

Gonna need somebody
Are you somebody
I'm waiting for the sun to rise
Shine through that cloud of mine
Yeah I'm waiting for the sun to rise
Shine through that cloud of mine
I'm waiting for the sun to rise
Shine through that cloud of mine
Yeah I'm waiting for the sun to rise
Shine through that cloud of mine

C'mon c'mon
Let's blow the rain away
Think I need somebody
A real somebody now
Gonna need somebody
(C'mon c'mon)
Are you somebody
Think I need somebody
A real somebody now
Gonna need somebody
(C'mon c'mon)
Are you somebody
Are you somebody
(C'mon, c'mon)
Are you somebody
Are you somebody
C'mon c'mon
Let's blow the rain away
