

1989

Bordo

I remember when I was twelve years old
No worries in my brain with a pound in my pocket
And a chest full of smoke
I remember all the chordies we drove
We used to play football all day
And use jumpers for goalposts
And throw egg yolks at windows
To wind up the old folks
Started learning about the birds and the bees
So there's birds from my class
On their knees behind trees
My favorite MC was Sharkey Major
Way before I hit one double O three
Temptation, Kiss 100 or Flava
Get off from school and take
Ninety two point three
But let's skip forward in time
Seven years down the line
And it seems the spotlights on me
Sometimes I still wish
That I was still twelve or thirteen
Life can pass you buy
Just watch how fast it flies
1989's when I started mine
Now I'm like what happened to the time?
Life can pass you buy
Just watch how fast it flies
1989's when I started mine
Now I'm like what happened to the time?
15, bag of weed, bag of beers in the park
Duckin' out from Feds in the dark
Then we appear with grass
Stains up and down my legs and arms
And with a fresh beer clenched in my palm
My bars are different class
I've been rolling with Dogz and Glamour
And Shotz for a year
I've been steppin' up fast
I guess I got around in the bits

I was selling bags of bud
And Tales from the Crypt
I met Ghetts when I was 14, lost touch
By 16, I'd linked up with Ghetts again
 Rolling with The Movement
 And started doing sets for them
Mercston, Scorcher, Unique and Wretch and 'em
2006, I was 17 when I finished my first solo CD
 But this time there's an album in the midst
 Life can pass you buy
 Just watch how fast it flies
 1989's when I started mine
Now I'm like what happened to the time?
 Life can pass you buy
 Just watch how fast it flies
 1989's when I started mine
Now I'm like what happened to the time?
 By the time I hit 17
 I was the coldest younger on the scene
With bars you never heard and flow you never seen
 Before I come around it was cock it and shoot
 MC's being cocky and rude
Then I moved to some deep concepts in my tunes
 Monitor my brain waves
Tell me if I'm crazed but I think the games changed
 And MC's are opening doors in the same ways
 As I did when I was a kid, I reach radio waves
 And now I'm paving the way for a fatal display
 Might blaze in a haze till I'm dazed
 Then wave a grenade in your face
17 with bars that I regulate and generate pace
 I'm only scared of who my enemies face
 Life can pass you buy
 Just watch how fast it flies
 1989's when I started mine
Now I'm like what happened to the time?
 Life can pass you buy
 Just watch how fast it flies
 1989's when I started mine
Now I'm like what happened to the time?
 19 Showing strength in the booth
 Now it's time to prove what Devlin can do
From the very first time I ever crept on a tune
I've immensely improved, the attendance is due
 Original spitter, not remnants of you

Swear I can see success in my view
Crazy what letters in a sentence can do
'Cause my lyrics are the
Only thing sending me through
Kanye called me a gangster rapper
I'm not a gangster rapper
Devs, I just spit it real
You're an MC like C difficile
I look skinny 'cause I keep on missing meals
I'll get cold like you know how frigid feels
No children, sticking them rigid still
I guess my life's fucked up
But I'm only nineteen
And I've got a lot of living still
Life can pass you buy
Just watch how fast it flies
1989's when I started mine
Now I'm like what happened to the time?
Life can pass you buy
Just watch how fast it flies
1989's when I started mine
Now I'm like what happened to the time?
