Migraine

Megan McCauley

Uh, uh, oh oh
Uh, uh, oh ohSpeak your peace
Then leave me, then leave me
I can't take
Seeing your face, please believe meUse me, forsake me, believe meYoure all the same, I wear your shame
Don't try and hide with alibis
Can't take the blame, fucked up your name
Please come inside, never mindDon't believe
Every angle, every moment
You can't see
Your soul is brittle from my tormentUse me, forsake me, believe meYoure all the same, I wear your shame
Don't try and hide with alibis
Can't take the blame, fucked up your name
Please come inside, never mindUh, uh, oh oh
Uh, uh, oh ohYoure all the same, I wear your shame
Don't try and hide with alibis
Can't take the blame, fucked up your name
Please come inside, never mindYoure all the same, I wear your shame
Don't try and hide with alibis
Can't take the blame, fucked up your name
Please come inside, never mind
