

# Forget what I said

Noora Noor

I get the blues  
I get high  
I'll explode like dynamite  
And i'll cry 'till the dust  
Settles down  
I guess i'm hard when i'm soft  
And i'm cold when i'm feeling so hot  
Sometimes i guess things just happen too fast  
Forget what i said - forget what i did  
It's not what i meant - so can you forgive it  
Just came out wrong  
I'm taking it back  
Forget what i said  
But i can love you like hell  
Put under my black magic spell  
And i can kiss you like nobody else  
I'll make good of my bads  
I'll make nice of all that is sad  
I'll cut off - the dead hands - of my past  
Forget what i said - forget what i did  
It's not what i meant - so can you forgive  
It's just came out wrong - i'm taking it back  
Please forget about it
