Move Closer

Sonique

Oh you're so far away, I can't share anything with you
So come on over here, for a moment before it's too late
I got no more time, sitting around, sitting around, fantasizingSo I wanna, so I wanna, so I wanna, so I wanna
Feel you, so move a little closer
I want to touch you, so move a little closer
Feel you, so move a little closer
I wanna touch you, so move a little closerOh you're so far away, I can't share anything with you
So come on over here, for a moment before it's too late
I got no more time, sitting around, fantasizing
I got no more time sitting around, fantasizingAnd I want to touch you
And I want to feel you now
And I wanna give you everything
I wanna give you everythingFeel you, so move a little closer
I wanna touch you, so move a little closer
Feel you, so move a little closer
I wanna touch you, so move a little closerOh you're so far away, I can't share anything with you
So come on over here, for a moment before it's too late
I got no more time, sitting around, fantasizingFeel you, so move a little closer
I wanna touch you, so move a little closer
Feel you, so move a little closer
I wanna touch you, so move a little closer
