

What You're Missing

R5

Ooo-wee-ooo

Ooo-wee-ooo

Ooo-wee-ooo We're so beautiful, and so broken.

I think the cover is about to crack open.

I watched you, through the window,
At the abbey looking like you're in a video.

When your so-called friends turn away.

A shadow crosses over your face.

For a minute I know just what you're thinking,
You might have it all but you're short of one thing. Living in a plastic world you

Think you're such a lucky girl you
Got your diamonds and your pearls but

I'm what you're missing,

I'm what you're missing.

I could be your that you need to
Feel like you are finally free from
A life that leaves you so empty but

I'm what you're missing,

I'm what you're missing, girl. Ooo-wee-ooo

Ooo-wee-ooo All the posers that hover around you,

Dropping names and cash like the who's who,

But they all think that Hollywood and hot class,

Bet the numbers all wind up in the trash.

And though you seem so hard to get to,

I know all the secret places I could find you.

I like that you like to slum it on the dark side.

Well I could keep you entertained for a while. Living in a plastic world you

Think you're such a lucky girl you
Got your diamonds and your pearls but

I'm what you're missing,

I'm what you're missing.

I could be your that you need to
Feel like you are finally free from
A life that leaves you so empty but

I'm what you're missing,

I'm what you're missing, girl. And girl,

When there's nobody else around,

I'll make it okay to come down,

Take off your converse and your crown,

Cause you've been wandering, I've been waiting,
And I'm what's missing.Ooo-wee-ooo
Ooo-wee-ooo
Ooo-wee-oooLiving in a plastic world you
Think you're such a lucky girl you
Got your diamonds and your pearls but
I'm what you're missing,
I'm what you're missing.
I could be your that you need to
Feel like you are finally free from
A life that leaves you so empty;
I'm what you're missing,
I'm what you're missing, girl.I'm what you're missing girl.
Ooo-wee-ooo
I'm what you're missing, girl.
Ooo-wee-ooo
I'm what you're missing.
I'm what you're missing.
Yeah, yeah,
I'm what you're missing (woah, woah), girl.
I'm what you're missing.
I'm what you're missing.
Yeah, yeah, woah, woah.
