

Dawning on Me

Villagers

Ive been awake for so long now
Just cant get to sleep
Youve been tugging at my eyelids
Youve been dawning on me
And theres a light coming through the window
But I all can see
Is the light of your love
Youve been dawning on me
Dawning on me
Ive been awake for so long now
Just cant get to sleep
Youve been calling on the sunlight
Youve been dawning on me
From your lips, to your belly
to your knees, and your feet
And the spirit that moves them
Youve been dawning on me
Youve been dawning on me
Ive been awake for so long now
Just cant get to sleep
Youve been delivering the daydream
Youve been dawning on me
And theres a light coming through the window
But all I can see
Is the light of your love
youve been dawning on me
