

American Psycho

Death SS

The american psycho says
The american psycho wants
The American psycho says
The american psycho needs Let me hynotize you Let me take control
Let me radiate you stupid little soul
I'll give you heaven I'll give you Broadway
I'll give you I'll give you the empire state
Let me mesmerize you Let me come inside
There's no way to escape this look in miy eyes
You know I need flesh You know I need flesh
Don't you worry honey I'll clean up all the mess Let me come inside you Let entertain
You know this will cure and take away your pain
This is like vegas This is for fun
This is like the movies
This is.....This is.....The american psycho says
The american psycho wants
