

# Boogie Blues

## Bill Perry

Don't the moon look lonesome shinin' thru the trees?

Don't the moon look lonesome shinin' thru the trees?

Don't your arms look lonesome when your baby back's up to leave?

Well I'm goin' up on the mountain to call that baby of mine

Said I'm goin' up on the mountain to call that baby of mine

But something tells me he's not coming back this time

Would like to go to the country can't take you

I'm goin' up to the country can't take you

Nothin' up there a man like you could do

He's got fins like a fish

Sheep like a frog

When he loves me I hallo oh, hot dog

Love that man better than I do myself

But I'm all alone, all alone on the shelf, on the shelf
