

Everything

Chester See

She loved and left me
Still she kept me
Wanting more, but feeling empty
Did she have to go?
Will I ever know?
Love and leave me
She deceived me
The way she kissed
Was so misleading
I thought that she might stay
Then she went away
Before I close the chapter to your name
There's a couple things I never got to say
Your eyes are wonderful
Your smile is too
Your laugh's contagious
And your heart is true
There's beauty in your touch
And your kiss is love
You're everything that every guy dreams of
You're everything
That makes me
Fall in love
It's been some time
But still I find
I'm struggling with our
Last goodbye
I thought this love would last
Now I'm living in the past
Cause it's just me
And memories of how my heart
Would skip a beat
Whenever you were near
Now you're never here
Before I find the strength
To let this go
There's a couple things
I need for you to know
Your eyes are wonderful

Your smile is too
Your laugh's contagious
And your heart is true
There's beauty in your touch
And your kiss is love
You're everything that every guy dreams of
You're everything
That makes me
Fall in love
You're everything that every guy dreams of
You're everything
That makes me
Fall in love
Your eyes are wonderful
Your smile is too
Your laugh's contagious
And your heart is true
YEAH, there's beauty in your touch
And your KISS is love
You're everything
Yes
You're everything
You're everything
That makes me
Fall in love
Yeah, in love
