

# We Wish You a Merry Christmas

## Gabriël Harmsen

Rich Girls, Loso, here we go, uh  
Swagga opposite of left, money opposite of small  
Being fly is a crime, then the cops would get a call  
I could move through a loon, full of vultures  
Nice and I still turn heads poltergeist rock  
A cold chain, neck full of souija ice  
You young boys should listen to me like adults advice  
My, I could help ya swagg elevated my look  
Is copy written, you could tell I made it it should be celebrated  
National holiday, I'm just doin' me flash a few dollas  
He my fashion modern day, my passion probably  
Thug like henny with a splash of alize  
I be with Rich Girls, you [unverified] pay respect  
And y'all ain't eatin' 'cause ya probably couldn't pay the check  
Swagg right, my [unverified] stay correct dem boys go hard
