Advisory - the following lyrics contain explicit language:

How many times
Did she let you down?
You came to me when she
Was nowhere to be found
She would apologize
And you'd let her inHow many times
When you were together
And you'd catch her on the phone
Tellin' you he was just a friend
When will you realize
That it just ain't rightChorus
I will never leave you by yourself
Turn my back on you for someone else
She may have done those things
But that ain't me
I will never leave you all alone, no
Turn away from where I belong
Although she let you down
That ain't me, babyWhere was she when
You needed her to be
By your side, with your family
She embarassed you
In front of them, ohWhere was your girl
You loved so much
When you needed just a touch
Someone who loves you in return
Why don't you see?
I will be all you needChorusEverytime you're with me
I treat you like you should be treated
Never let you down
I'll always love you
Everytime you feel alone

You call me on the phone
And one thing I know for sure
I'll always love youBaby, baby
Do do do do do do
Ooh
That ain't me
All you own
Your cars and your home
Own me
Never let you down, no no
NoI will never leave you by yourself
That ain't me
I will never leave you all alone, no
Although she let you down
That ain't me, babyChorus Fade
