

Baby You're A Child

Shakin' Stevens

When my eyes first saw you
I knew I drove you wild
I know you wanted all of me
but it will take awhile.

You walk that walk
talk that talk.

You walk that walk
talk that talk.

Ooh
you're a child.

I know you want to hold me
hold and treat me right
I know you want to love me
all through the night.

You walk that walk
talk that talk.

You walk that walk
talk that talk.

Ooh
you're a child.

Well

I know you think you're ready
so throw away your teddy
let me come into your arms
prove you've lost your baby charms.
You know you're grown up baby

you knew right from the start
ooh baby don't yearn
but you've still got my heart.

You walk that walk
talk that talk.

You walk that walk
talk that talk.

Ooh
you're a child.

Well

I know you think you're ready
so throw away your teddy

let me come into your arms
prove you've lost your baby charms.
You know you're grown up baby
you knew right from the start
ooh baby don't yearn
but you've still got my heart.
You walk that walk
talk that talk.
You walk that walk
talk that talk.
Ooh
you're a child.
Ooh
you're a child.
Ooh
you're a child.
this time I find that I'm really losing you
my heart is broken now
it really doesn't
