

Speak to Me

Marshall

V1:

All we do anymore is throw fits
and slam doors I'm over it
I hate to say it but we're gonna crash
We try to work it out any way
But If we talk it out, the easy way
We need to fix what's in the pastPrechorus:
We need to find a way to look past all this pettiness
But the silent treatment ain't helping us one bitChorus:
So please speak to me like you once did
(Back when we knew love)
I need to hear your voice again
(It's all I'm thinking of)
I need to hear you tell me something beautiful
If you don't open up our love dies here
So, please speak to meV2:
I left you all alone, for a couple days
With the hope that given time you'd break
But your walls they didn't even crack
I'm feeling so estranged, and I'm filled with doubt
If it doesn't change I'm walking out
And when I do there's no going backPrechorus:
Well it's not too late for us to undo all this ugliness
But the silent treatment ain't helping us one bit
It ain't helping us one bitVamp:
I need you, I need you so ...
