

# The End

## Daughter

[Verse 1]

This is the end, this is the end  
You wait to find that I am still here  
And you've been waiting for the light to shine  
Wake up, wake up, wake up  
I'll be the answer to the question I can't answer  
It's a question you can't spit it out  
Can we find  
We find, we find a way out  
A way out

[Verse 2]

It's easier to understand  
We die, we're buried underground  
But I have stayed awake since then  
I'm trying to find a new best friend  
You instigate, come after chasing  
Oh, what the hell should I say then?

I missed you

Let's spend the future talking about the past  
How you said goodbye  
How I fucked your mind up

[Bridge]

We really are something else  
I'd say you were sent here just to keep me in check  
My pulse is quick  
My neck is stretched  
Cruel lover says I need to just get over it  
Get over him

Get over myself

[Verse 3]

They say there's something in the sky  
We should pay attention  
I don't care to realize  
I'm too busy moping  
They say there's something in our seas  
We should all be careful  
I'm not swimming anyway  
I'm too busy moping  
They say there's something in my house  
That I should just get out, get out  
I don't want to be escaping

No, I'm too busy moping around  
I'm too busy moping around  
I'm too busy moping around  
I'm too busy moping around  
I'm too busy moping around[Outro]  
Take a run home, I don't like where you're going  
Run home, I don't like the words you're saying  
Run home, I don't like where you're going  
Run home, I don't like the words you're saying  
Take a run home, I don't like where you're going  
Run home, I don't like the words you're saying  
Run home, I don't like where you're going  
Run home, I don't like the words you're saying
