

Anybody Wanna Funk?

[Paulo Mendonca](#)

I don't fake it I make the party rock
back to the future we gonna stop the clock tick tock
just like sly high on the groove
u cant understand it so heres what im gonna do yeah.
If u don't belive u don't know how it could be real
If u wont be told then people u have got to feel. Anybody wanna funk does anybody want to fonk tonight
Anybody wanna funk then lets make this groove ours tonight
Anybody wanna funk does anybody want to fonk tonight
A room full of freaky fever making u belivers Like Houdini I got a trick 4 you
Aint no woodo what these hands can do
U got a feeling u cant explain
Your body's moving to a higher plane U can be what u wanna just feel this magic melody
U know u can not deny this jams got u hypnotized
