Ooooh ooh

so baby if you wit me youll have everythin you need and i know you must be tired of tryin  
i see you cryin, it aint right  
how much can you take, right

this is my proposal to you  
what you need to do  
is just come to me you have the key unlock the door  
dont stand outside  
in the cold no more  
i got a place that  
you can be safe at  
i told you before walk in  
what you waitin for come in come in my doors open (x4)(dont see how you take it)  
seems like you home alone everynight  
(still you try to make it)

(and i just cant fake it)
