

Under the Milky Way

Kevin Max

Sometimes when this place gets kind of empty

Sound of their breath fades with the light

I think about the loveless fascination

Under the Milky Way tonightLower the curtain down in Memphis

Lower the curtain down all right

I got no time for private consultation

Under the Milky Way tonightWish I knew what you were looking for

I might have known what you would findAnd it's something quite peculiar

Something that's shimmering and white

It leads you here despite your destination

Under the Milky Way tonight

Wish I knew what you were looking for

I might have known what you would find

Wish I knew what you were looking for

I might have known what you would find

What you would findAnd it's something quite peculiar

Something that's shimmering and white

It leads you here despite your destination

Under the Milky Way tonight

Under the Milky

Under the Milky WayWish I knew what you were looking for

I might have known what you would find

Wish I knew what you were looking for

I might have known what you would find

What you would find

Under the Milky way

Under the Milky Way tonight

Under the Milky way

Under the Milky Way
