

Water Song

State Lines

 this boy and girl were lovers
 came from different towns
 now they both live in the same one
see each other roundhe saw her at the rose bowl
 just the other day
 she showed him what she bought there
and they struggled for what to saythey say we're made mostly of water
 so how come we can't find the sea?
 they say true love creeps up on you slowly
 oh how blind some people can be
 this boy and girl had troubles
 lasted fifteen rounds
 both threw in the towel
 no one took the crown
 and time it tends to pass us
 as we look the other way
 now he sells insurance
and she's in a non-union playoh how i wish we were like water
 we'd float on down into the sea
 if you find true love at your door knocking
 invite her in make her some teathis boy and girl were lovers
 came from different towns
 now they both live in the same one
see each other roundthey say we're made mostly of water
 so how come we can't find the sea?
 they say true love creeps up on you slowly
 oh how blind some people can be
