[Intro]
Uh, uh, uh, yeah
Uh, uh, yeah yeah [x8][Hook]
All day (all day), everyday (everyday)
We was on that block until we made a way
Day to day, man that's the only way
They gon' know my name until it fade away
Fade away, fade away, they gon' know my name until it fade away
(Way, way, way), fade away, they gon' know my name until it fade away[Verse 1]
I've been there I've done that, done that
This rap shit I run that
Motherfucker this far from a comeback
If one of us fall, then we run back
Can't let that social worker just snatch up my kid
Gotta get my son back, cause when they coming through
That system don't give a fuck about you (you)
Everybody gonna die, gonna go one day
Maybe it will happen on a Monday
So futuristic on another mission
But back on earth everybody bitching
I been in the kitchen
Livin' my life no inhibition, life or death with no innermission
Now the good books say we all the same
Then we kill each other but it's all in vain
And we all to blame, can't see the picture when inside the frame
Real talk, I wanna grip the grain and just ride with ya
Build a family and then die richer
When ya get to heaven I'mma come and get ya
Sit back and really get the picture
This life, yeah it done ate away
Hard times never stayed away
But one thing I know day to day, I'mma do somethin' 'fore I fade away[Hook]

Fade away, fade away, they gon' know my name until it fade away
(Way, way, way), fade away, they gon' know my name until it fade away
