Always

Rilo Kiley

1, 2, 3, 4
I should have known with a boy like you
Your middle name is Always
I'd always love you
Ahh, yeah
You let the needle drop
I think that you could do so much better
Those conventions are taking their toll on you
A phantom is disguised
It's horrifying
Right before your eyes
Phantom is inside
I should have known with a boy like you
Your middle name is Always
I'd always want you
Ahhh, yeah
A phantom is disguised
It's horrifying
Right before your eyes
The phantom is inside
It's hideous
Right before your eyes
The phantom is watching you
The phantom is watching you, you
