

# Always

[Rilo Kiley](#)

1, 2, 3, 4

I should have known with a boy like you

Your middle name is Always

I'd always love you

Ahh, yeah

You let the needle drop

I think that you could do so much better

Those conventions are taking their toll on you

A phantom is disguised

It's horrifying

Right before your eyes

Phantom is inside

I should have known with a boy like you

Your middle name is Always

I'd always want you

Ahhh, yeah

A phantom is disguised

It's horrifying

Right before your eyes

The phantom is inside

It's hideous

Right before your eyes

The phantom is watching you

The phantom is watching you, you
