

Data Blockers

Bonzie

Fix, myself
In a box
Put the corners to blameIn shame
There are people
Who are paid to make you safeDreams on rotation
As it plays back
All my fears get their framesExpanding
On a wall that
I have put on displayMute what is left
Let the feeling
Drain out of your chestImpaired, distorted action
Data blocked
From your headFix myself
With my own hands
Do not accept any helpIt's a Trick
A trick question
When the answer
Is the trick itself
