One Way Mirror

Example

Take me to a better place
Take me to a better place
On the other side
On the other side of lifeTake me to a better place
Take me to a better place
On the other side
On the other side of lifeAnd I tried, tried, tried
To meet your perception
And though it sounds good on reflection
Didn't promise to embody perfectionAnd I tried, tried, tried
To meet your perception
And though it sounds good on reflection
Didn't promise to embody perfectionOne way mirror
Three wishes I refused to deliver
You see the things I promised to give ya
Abusing my liver
Get closer
The closer you inspect it gets clearerI can see you but you don't see me
I really need you but you don't need me
You see though it all, you see through the one way mirror
You see the things I promised to give yaYou see the things I promised to give ya
Three wishes I refused to deliverTake me to a better place
Take me to a better place
On the other side
On the other side of lifeAnd I tried, tried, tried
To beat the addiction
But that's the only place I got kicks from
You were frosty to me like I was Nixon
YeahOne way mirror
Three wishes I refused to deliver
You see the things I promised to give ya
Abusing my liver
Get closer
The closer you inspect it gets clearerI can see you but you don't see me
I really need you but you don't need me
You see though it all, you see through the one way mirror
You see the things I promised to give yaYou see the things I promised to give ya
Three wishes I refused to deliver
You see the things I promised to give ya

Three wishes I refused to deliver
