Downstairs

Lunahii

Where should I go now
Should I go downstairs or should I
Stay up here, away from all my fears

I tried to take a step
But, fell three steps back
Up here is where I know, it feels like my home

I know what lies up here
I can see it so clear
Who knows what lies down there
I always feel so scared

I know what lies up here
I can see it so clear
Who knows what lies down there
I always feel so scared

Scared and unaware
I wish I could bare
The mystery that glows, so far down below

So far below

I know what lies up here
I can see it so clear
Who knows what lies down there
I always feel so scared

I know what lies up here
I can see it so clear
Who knows what lies down there
I always feel so scared
