

Fire

Langhorne Slim & The Law

When I was a little boy - wild and insecure - I kissed a girl she made me smile - well I caught her fireBut I just
dont feel it anymore - I just dont feel it anymoreOh how I miss the way she used to smile I miss her fire
FIREAnd as the earth moves under our feet and its hard making ends meet
Well feelin pushed around broken and beat -Grab hold of what you desire grab hold of fire said FIRE We call it
FIRE
YEAHHHH Fire -All right baby Yeah
