

# Wild Turkey

## The Lacs

I got designated driver tonight  
So I thought that I might get drunk  
I told Jimmy that he could decide what I'm drinkin'  
Cause I didn't care what  
Summer party back in the woods  
About seven hundred people there  
I said I'd hit the karaoke machine  
And sang Garth in my underwear

And I can blame it on the Wild Turkey  
For the cussing and the gettin' loud  
I was surprised some ole boys didn't jump me  
Because they say that I was showin' out  
I'd like to thank everyone that didn't call the law  
To come and drag me in  
Last night you saw me drankin' Wild Turkey  
But you'll never see me drink it again

Well they say that I was tryin' every girl that was hot  
Said I was hangin' up all up on them, if they were married or not  
Well my jaw was kinda hurtin' in the morning light  
Yep, I think it got slapped a couple dozen times  
Eleven twenty and ole Jimmy left an hour ago  
I'm purdy sure that he's the one who's gonna to carry me home  
Well my guts is feeling funny so I found me a spot  
I started calling dinosaurs right between two cars  
Well, played it off nice, I told them I was mentally ill  
But when they smelt my breath they knew what it was  
I had to elude 'em through a cotton field

And I can blame it on the Wild Turkey  
For the cussing and the gettin' loud  
I was surprised some ole boys didn't jump me  
Because they say that I was showin' out  
I'd like to thank everyone that didn't call the law  
To come and drag me in  
Last night you saw me drankin' Wild Turkey  
But you'll never see me drink it again

Them turkey suds got me drunk

I hit the ditch and rolled my truck  
I borrowed a car got it stuck  
Over the fenders up in mud  
A seventy six Pontiac I hope my friend don't want it back  
But if he does he'll probably cuss  
And try to fight and all that stuff  
Early morning waking up my breath stankin' feeling rough  
If you gonna be dumb you gotta be tough  
I had a good dinner but throwed it up  
Gettin' drunk a hour later  
Shot in the chest with a taser  
The cop said I hit my head  
Front page on the county paper

And I can blame it on the Wild Turkey  
For the cussing and the gettin' loud  
I was surprised some ole boys didn't jump me  
Because they say that I was showin' out  
I'd like to thank everyone that didn't call the law  
To come and drag me in  
Last night you saw me drankin' Wild Turkey  
But you'll never see me drink it again
