

# Show You the Light (feat. Efraim Leo)

MARC

Now I could tell you that you'll be mine  
I can't believe my eyes tonight  
How can I stay in this wonderful dream  
Oh, wanna see you, wanna see you I still remember when you said it all  
Just couldn't get you out of my head  
I wanna be with you everyday  
Oh, can't fight, just can't fight it Just let me be the one, to hold you tight  
Show you the light  
I want to treat you right, every night  
Show you the light You know what I feel, I say it ain't fair  
I just want to see you every night  
I'm crazy about you, I make you all mine  
Oh, can't resist you, just can't resist you Just let me be the one, to hold you tight  
Show you the light  
I want to treat you right, every night  
Show you the light Show you the light Oh, oh, oh just wanna show you paradise  
Oh, oh, oh you're making it hard to say goodbye  
Oh, oh, oh love gonna make it through the night  
When I show you the light  
Show you the light  
Show you the light  
Show you, show you the light  
Show you, show you the light
