Lifeline

Brooke Fraser

I have this sinking feeling
Something's weighing me down
I am completely saturated
The waves are crashing closer
My feet already drowned
Doing the thing I said I hated
They've been swimming in the wrong water
Now they're pulling me down
But I am clinging to you, never letting go
'Cos I know that you'll lift me out
[Chorus]Have your way here
Keep me afloat 'cos I know I'll sink without you
Take this ocean of pain that is mine
Throw me a lifeline
Wake up feeling convicted
I know something's not right

Re-acquaint my knees with the carpet
I have to get this out
'Cos it's obstructing you and I
Dry up the seas that keep us parted
'Cos they've been swimming in the wrong waters
And now they're pulling me down
But I am clinging to you, never letting go
'Cos I know that you are gonna pull me out
[Chorus]They've been swimming in the wrong waters
And now they're pulling me down
But I am clinging to you, never letting go
'Cos I know, 'cos I know
[Chorus]
