Paragon

Charlotte Hatherley

Caroline, inspiration true
Left it all behind and turned your hand to something new
Suddenly left for better shores
With the kind of reckless abandon that we applaudIf I could, I would follow youCaroline showed us what to do
Made it on your own terms, oh yes, we look up to you
You call the tunesAnd if I could, I would fly through the air
I would fly out to meet ya
Cross the void and travel interplanetary
Oh, let's go, stick it to the rules
We wanna be like you, ohI can see your light up in the sky
Moving over city satellites
Pick me up, take me to another solar system I can cut, oh
Help me find the strength to follow through
Caroline, I couldn't do it without youStuck in a rut, sunk inside a groove
I could disappear here, all my instincts say it's true
I wanna do something that has merit to it
That will strike a chord and resonate as far as youIf I could, I would fly through the air
I would fly out to meet ya
Cross the void and travel interplanetary
Oh, let's go, stick it to the rules
We wanna be like you, ohI can see your light up in the sky
Moving over city satellites
Pick me up, take me to another solar system I can cut, oh
Help me find the strength to follow through
Caroline, I couldn't do it without you
Oh, do you think that I
Could ever make a difference if I really try?
Help me find a way to cut loose
Caroline, I couldn't do it without youI was unaware that you were gonna go
I didn't know you well enough to know
I've always thought of you and how you're moving on
On, on, yeah, you're a real paragon
On, on, on, yeah, you're a real paragon ..If I could I would follow you ..
