One Tender Moment

Manchild

One Tender moment

My you?re shivering
You needn?t be afraid of love
My there tears in your eyes
You must not be afraid of love
I know it?s your first I will try to be gentle my love
I know it?s your first I will be so gentle my love

My there?s fear in your heart
Let me take all of your fears away
I?ll teach you to understand love
So that you need never be afraid
I know it?s your first I will try to be gentle my love
I know it?s your first I will be so gentle my love
Oh and you?re my love
Just allow me this one tender moment with you my love
Oh Just allow me this one tender moment with you my love
Just allow me this one tender moment

Just allow me this one tender moment with you my love
Just allow me this one tender moment with you my love
Just allow me this one tender moment

Hey love
You neednt be afraid - neednt be afraid
Let me wipe the tears from your eyes
please love
please love
oh I can be so gentle
I can be so gentle
Oh Just allow me this one tender moment with you my love
Just one moment
