

# Mankind's Not Kind

## Agathocles

Chickens abused in factories  
Eggs produced for vital needs?  
Cow are injected to get fat  
The poor animals, they just go mad.  
Oh yeah, our mankind's not so kind  
maybe it's the meat which made'em go wild  
the results of all the anomals tests  
Are of no use for the human quest  
to live healthy and never die  
They just don't hear the animals cry.
