

# Leave Me

## New Edition

I know it comes as no surprise  
That I am so in love with you  
When I think of us two, I start feeling blue  
Something that I've gotten used to  
But lately I must admit times have been hard  
Put a straining pain on my heart  
As much as it hurts to say these words  
I think that is best for you to Leave me live your life don't worry  
I will be alright  
In no time you'll find someone  
Who's better than I  
Go now don't you cry  
I'll always be right by your side  
Maybe someday we'll get another try It seems as though every time  
I speak your name I get weak  
'Cause I imagine before I go to sleep  
That you are right here with me  
Somebody told be  
You cant appreciate what you got until it is gone  
But they were so wrong because I have cherished you  
Its just that I'm not the one you care Leave me live your life don't worry  
I will be alright  
In no time you'll find someone  
Who's better than I  
Go now don't you cry  
I'll always be right by your side  
Maybe someday we'll get another try Deep down inside  
Please hear me now  
You expect so much  
Thats why I'm hurtin' inside  
And I don't even  
And appreciate it for my average girl  
This is where we've grown apart  
And I don't know if we can handle  
The trouble  
If not its gonna hurt me to see you Leave me live your life don't worry  
I will be alright  
In no time you'll find someone  
Who's better than I

Go now don't you cry  
I'll always be right by your side  
Maybe someday  
We'll get another try  
Leave me live your life don't worry  
I will be alright  
In no time you'll find someone
