

It's Time (feat. Charity Bush)

Eddie James & Ultimate Call

It's time calling you, for abandonment to me
To cast off all the works of darkness, with its deeds
All that would hinder, and stand in my way
Let it go, don't delay, do it today

My spirit is being poured out,
In great measure on our flesh,
but only flesh that is dying will receive at my best
Fire will consume, all the altar sacrifice,
Those who have died to the world,
And are crucified with Christ.

It's time to surrender, it's time to give up
It's time to repent of all, what shouldn't been your cup
For the healing of the nation, the touch of my grace
It's time to surrender, it's time to seek my face

It's time to seek my face!

To finish in the flesh, what was begun of me
Will only bring you bondage and captivity
Mean religious activities, worthless effort of men
Are the greatest of deception, and the worst kind of sin

For religion thinks its holy, but never recognizes me
Religion was what crucified and nailed me to the tree
I may not come in the way that you'd expect
But I am coming in power and glory,
You ain't seen nothing yet.

It's time to surrender, it's time to give up
It's time to repent of all, what shouldn't been your cup
For the healing of the nation, the touch of my grace
It's time to surrender, it's time to seek my face

It's time to seek my face!

When I said to you: seek my face
My heart slipped, your faith Lord will I seek
Have mercy on me, Jesus (x 2)

Your face will I seek
It's the only, the only thing my heart longs for
It's the only thing

It's time to surrender, it's time to give up
It's time to repent of all, what should have been your cup
For the healing of the nation, the touch of my grace
It's time to surrender, it's time to seek my face

It's time to seek my face
It's time, it's time to seek my face

It's time (x 6)
I'll come back to you (x 4) God
I'll come back to you (x 4) It's time to (x2)

I'll repent for complacency, I'll repent for weakness in me
Jesus! (x5)

It's time to surrender, time to give up
