

# New Year's Song

## Over the Rhine

Here's a little New Year's song  
Don't worry it won't take too long  
Just a bit of New Year's cheer  
To say I'm glad you're here Little leftover Christmas tree  
Just big enough for you and me  
With just a single strand of lights  
To tease the stars outside And we thought perhaps we'd see some friends  
But as the old year slowly ends  
The dogs are dreaming in their beds  
We might stay home instead Here's a little New Year's song  
Don't worry it won't take too long  
Just a quiet New Year's eve  
There's somethin' up your sleeve And I might gently take your wrist  
Read your body like a Christmas list  
The first night that the New Year brings  
I wouldn't wanna miss a thing Let's stay home and play old records  
Our future's bright our past is checkered  
What do you say we lift a glass Toast the ghost of another year past  
Just a little New Year's song  
Happy New Year everyone  
It came upon a midnight clear  
Another brand new year New mercy comes with every morning  
The unexpected with no warning  
For loved ones who've gone on before  
Sing me Auld Lang Syne New mercy comes with every morning  
The unexpected with no warning  
Let the dear ones you love know  
You'll miss them when you go
