Digital On

Neve

Coming on and saying nothing
To anyone who can see
Take a ride while suspending in a state a mind
All the pictures of denial attack
Never ending coming down on everyoneI will do what I like
And you cannot say what's right
And you won't change my mind
Alright, alrightI will do what I like
And you cannot say what's right
And you won't change my mindGoing right for the throat
Pull me in, let go
Surrounded by a lie that's televised to everyone
Roll the pictures yeah it's selling youSo quit acting like it's nothing
When you know it's true
Forget those things that you said before
Because I just don't know what you take me forI will do what I like
And you cannot say what's right
And you won't change my mind
Alright, alrightI will do what I like
And you cannot say what's right
And you won't change my mindLoop the digital on
Until the bat takes flight
A demon right through the night
Until the morning comesTell 'em, tell 'em
That I can't make it in today
Take a drive through the countryside
To loosen upForget those things that I said before
I'm just not sure what you're waiting for
And I thought that I'd know how to deal with this
But I just don't know exactly what this isI will do what I like
And you cannot say what's right
And you won't change my mind
Alright, alrightI will do what I like
And you cannot say what's right
And you won't change my mindAlright, alright
