

# Digital Love

## Bronze Radio Return

I can't do this no more  
Pulling myself up off the floor  
And if I'm not plugged in, you're not coming in  
'Cause I don't need another chore to do  
I'm an analog man with a digital case of you Sign me off now, sign me on  
Write me off now before I'm gone  
And if I keep plugged in, you keep coming in  
And maybe I need something new  
I'm an analog man with a digital case of you [Chorus:]  
Oh I'll love you through the wire if the wire is strong  
'Cause a cool cable crumbles when this wire gets long  
And I say I know it, you know it, I say hey  
It's like digital, digital, digital love Mama don't see me no more  
I tell you, I tell you  
My Mama don't see me no more  
I tell you, I tell you  
And on and on, it goes and goes  
I can't get closer if the distance grows  
This is digital and I take it as it flows Dial me up now, dial me off  
Communicate this before it's lost  
And if I'm here, you're there, it's always where  
We can never get together in the same damn room  
I'm an analog man that your wires always run to [Chorus:]  
Oh I'll love you through the wire if the wire is strong  
'Cause a cool cable crumbles when this wire gets long  
And I say I know it, you know it, I say hey  
It's like digital, digital, digital love
