Minnie Driver

Angel, asleep on my shoulder
You don't know how you're gonna grow
Think you'll be strong and kind like your daddy
Sweet and generous as your mama tooSky above, endless and ever blue
Filled with stars, shinin' their light on you
They're there when you're feelin' scared
You're all alone, they lead you home
Home, homeAngel, look what you've come to
Like the deep blue sea love is all around you
It's there when you're standin' tall
It'll be there when you fall
It's at the edge of all the dreams you'll dreamSky above, endless and ever blue
Filled with stars, shinin' their light on you
They're there when you're feelin' scared
You're all alone, they lead you home
Home, homeAngel, asleep on my shoulder
You don't know how you're gonna grow
Think you'll be strong like your daddy
Sweet and generous as your mama too
Oh, it's waiting for you, it's waiting for you
It's waiting for you, it's waiting for you
