

I.D.G.A.F.

Breathe Carolina

A constant red on for days and days
I see those lights reflected on your face
Everything can change the moment
That you blink but I don't mind So if you wanna come in then come in
Disintegrate into me tonight
And if you wanna give in then give in
Anything that you feel is right Even if this chemistry's catastrophe
I don't give a fuck
I don't give a fuck If you wanna taste
Then take a bite right out of me
I don't give a fuck
I don't give a fuck Freezing time like a strobe on you
Breathing in electronic fumes
We've made our minds and
We've made our bed, so let's sink in So if you wanna come in then come in
Just disappear into me tonight
And if you wanna give in then give in
Anything that you feel is right Even if this chemistry's catastrophe
I don't give a fuck
I don't give a fuck If you wanna taste
Then take a bite right out of me
I don't give a fuck
I don't give a fuck If you wanna come in then come in
Disappear into me tonight
If you wanna give in then give in Give in to me
Give in to me Even if this chemistry's catastrophe
I don't give a fuck
I don't give a fuck If you wanna taste
Then take a bite right out of me
I don't give a fuck
I don't give a fuck We're not built to last
Shatter like glass, so come on
I don't give a fuck
I don't give a fuck I can't remember anything
Like what's your name?
I don't give a fuck
I don't give a fuck
