

# I Can't Imagine

Aaron Neville

You know I wondered where I be if not for you  
I'd still be wondering through this world without a clue  
At night I wake up and look across the bed  
And you never think that crazy things  
Were running through my head. I can't imagine  
Our journey through this world without you  
I'm loving everything about you I search my heart and  
Soul how could there ever be a greater love than ours  
I can't imagine Oh oh I want to wrap you like a present in my arms  
Give you to myself and keep you safe from harm  
My every moment devoted to your care I don't even  
Want to think how I survived without you here I can't imagine  
Our journey through this world without you  
I'm loving everything about you I search my heart and  
Soul how could there ever be a greater love than ours  
I can't imagine Shared my life with any other  
I'm making love with you I can't imagine  
I search my heart and soul how could there ever be  
A greater love than ours Let me tempt you and deliver  
Let me make you feel the open road  
I'll make your blood run like the river  
How could it be, be better than to ever  
Love you more I can't imagine  
Our journey through this world without you  
I'm loving everything about you I search my heart and  
Soul how could there ever be a greater love than ours  
I can't imagine
