# Communication

## X-Act

An introduction to a rapid ray Will explode like grenade
Check the medical aid 'cos the way that we parade the fade
Any MC that claims that they can be
Tend the mic when we strike precisely
We freak the level with the funk from the inner
Heaven, give me inner, black as I present a
Flock a rhyme that rock you off an ass
Powerful, power flows that'll leave your soul paralyzed
Yo, I respect that you be G in, in
It's the return of MC in, in
Yo, thank God for the season, on
And don't be tryin' to think about a reason
'Cos there is no reason for you to front
We create cuts to give you what you want
Activate communication for the world
Shockin' your mind with rhymes
Doin' it like what AP, like this here
Rockin' it like what AP, like this here
Flippin' it like what AP, like this here
Doin' it like what AP, like this here, yeah
We do it upside down
We do it upside down
We do it upside down
We do it upside down
We do it upside down
We do it upside down
We do it upside down
We do it upside down
Can I get a "Ha" from my brothers that be chillin' downtown?
"Ho" for the people that be in it what we do
"Yo" check it out 'cos we black and positive
I suck in negative from you
I got many rhymes format from the back of the brain
Interludin' with the powerful matter scatter your frame
You fallin', yo check out what we do
We be all in on the microphone never stallin'
Rhythm is my ride for the voyage of the mind
Exclusive rhyme pattin' us for what we design
I am my own Picasso when I roll

Rhymin' is my art for my heart and soul
We positive when MC in, in
Break bounce with the new blend, end
Original 'til the end, end
Sittin' it all for no reason
They fell off at the attempt to elevate

They try to duplicate the art that we create
So activate communication for the world
Shockin' your mind with rhymes
Doin' it like what Will, like this here
Rockin' it like what Will, like this here
Shockin' 'em like what Will, like this here
Rockin' it like what Will, yo, yo, it's like this here, yeah
We do it upside down
We do it upside down
We do it upside down
We do it upside down
We do it upside down
We do it upside down
We do it upside down
We do it upside down
We goin' worldwide, across the nation
Now that we've activated our communication
Wantin' demonstration, ask the activator
Before one more walk a meter, funky motivator
And I be the Will, APL from the Phil
We contain the hipnotical skill that'll kill
You dealin' with the GREAT
Black Eyed Peas guy, hella in a G
'Cause we holler in an energetic motion
With the potion I supply
Applyin' to the beat that Alligator you combine
With me and my crew incredibly and super spectacular
With the rhyme one two
One two to the beat, hop
You can't defeat
BEP's production always complete
With this sounds activate online
And I'm on time to motivate your mind
Well, I respect that you be G in, in
It's the return of MC in, in
Yo, thank God for the season, on
Sittin' there off of no reason
We do it upside down

We do it upside down
We do it upside down
We do it upside down
We do it, do it upside down
We do it upside down
We do it upside down
We do it upside down
