Fixation

The Coup

Well, this is verbal penetration
Alert your school administration
If you act like a dick castration
It just brings me elationYour misleading presentation
Was just boring oration
Gun claps from my tech will be your standing ovation
Beat per minute calculationsMatch aorta calculations
Which speed up if you eat that greasy defecation at nations
Tear along the perforation
Means collection notificationAnd you know I stack my scrilla in negative denominations
And that's a damn abomination
It takes all my concentration
To not rob armored transportationAnd collect compensation
But it takes contemplation, conspiration
Conversation and propagation
Information, dissemination and tribulations, no hesitationIndoctrination, affiliation, penitentiary and jail evasion
For liberation and publications
Spell the coup with capitalizationsI was on the verge of ejaculation
Police performed a home evasion
So I cut off the illumination
And jumped out of the ventilationThey were in anticipation
Waiting in voltron formation
So I performed circumnavigation
And then crawled through the foliationStarted my legs to gyration
Caught me, took me to the station
Valuables confiscation, started the interrogation
Causing business complicationsSaid they wanted pacification
I said, I know all yo macinations
You gets no respect, no information
One mo thang fo yo gestation
Think you should try self fornication
