[Lil Wayne]  
see me, I'm focused man  
but my girl don gon stop it  
stuntin like her daddy  
vroom on the yamaha

I call her lil (?)  
sometimes I call her shawty  
she only wears dresses she sleep in Ed Hardy  
ya dig, it's young weezy  
the 80's baby  
and we can get together and make 80 babies  
now the house brand new  
the car brand new  
but your still the same old you[RL Chorus]  
I want a girl like her  
that'll stay down for me  
everything that I need  
girl put me first  
here for better or worse  
so I want a girl like her  
somebody that'll look like her  
somebody that can cook like her  
sex is off the hook like her  
on everything I need a girl like herI need somebody that'll always send my (?)  
somebody that'll keep me on track  
when I feel the weight of the World on meI need somebody like this  
gotta handle her business  
know how to hold my interest  
be there in an instant  
I'm looking for you[Chorus]She's gotta have her head on straight  
my escape from the every day

things to deal with  
someone to chill with  
I can build with something real with  
not that everyday in the club  
need more than the average one  
something special  
extra exceptional  
freaky sexual[Chorus]If you get your own money  
if you got your own crib  
if you got good credit  
and you handle your biz  
sing along with this  
talking to you[Chorus]
