The Eternal Ruler

Iugula-Thor

Born out of exile
Must I save thee from abolishment
Hence utter chaos must unsue
Nominated Czar
Must I revive what hath dormant lies
Hence your empire now shall fall
Now among us, he is
Now one of us, he is
The bane of our existence
The eternal ruler
From the dust shall arise
Rise up and destroy (eradicate) us all
Manifestation
O'Mighty wicked serpent of the deep
The betrayer of all
Are we the flock of sheep led to extinction
Or a swarm of locusts who shall prevail
Archetype of foul
Cataclysmic beast of the abyss
Unto thee now shall all you fall
Is it the beacon of hope as deemed to some
Or the coming of apocalyptic scorn
May the stars drop from the heavens
The Sun shall transform to black
I shall make the moon cry blood
Usher in the new age of Man
