Don't Look Back

The Knack

One, two, three, four!Cold rain pourin' and I'm feelin' hurt
With my back wheel spinnin' in the dirt
Angel makes up her face down on lonely street
Won't you straddle the shifter in my front seat
There's nothing to lose, it's a heartbreak, the deck's stacked
Just put your foot to the floor and darling don't look backWon't you cool me down in this blazin' rain
Cause I'm blowin' pistons, workin' the fast lane
With the poor boy's dream, my pocket's full of cash
Baby writes her name in lipstick there on my dash
There's nothing to lose, it's a bad break to face facts
Just keep your eyes on the road and darling don't look backWe held it in our hearts in the pourin' rain
We made it through the heart of the hurricane
We tore it apart and we put it together again
Whoa-whoa-whoaBaby won't you believe in love for me
And I will meet you tonight on that lonely street
When you look sight's blindfold on shooting stars
You gotta walk it talk it in your heart
There's nothing to lose, it's a heartbreak, the deck's stacked
So put your foot to the floor and darling
Just keep your eyes on the road now baby
Tonight we'll even the score and no we won't look backYeah!Don't look, don't look
Don't look, don't look
Don't look, don't look
Don't look, don't look
Don't look, don't look
Don't look, don't look
