

Girls Like Me

Will Joseph Cook

She knows me so well
its crazy when i think of it
Well my heart just needs help
Maybe later we could parle
Now looking back I guess it was kinda hazy
Got my caught up and frustrated in love
looking back how did thigs always get so heavy?
I was escalating every touch
You see la la la la la la la
girls like me dont come around that much
you see la la la la la la la
but i've been waking up without you
Looking at the trees
its crazy what they do to me
finding new functions
Still running from the same fears
now looking back, I guess it was kinda hazy
Got me caught up and frustrated in love
looking back
How did things always get so heavy
I was escalating every touch
You see la la la la la la la
Girls like me dont come around that much
You see la la la la la la la
but i've been waking up without you
...no idea sorry.
la la la la la la la
Girls like you dont come around that much
you see la la la la la la la
But i've been waking up without you...again no idea...{la la la la la la la la girls like you dont come around that
much}End
